

Ameer has been diagnosed with very mild autism. He has been lucky. He was quickly accepted into Rainbow Centre for their early intervention program. However, we felt that wasn't enough as he has lots of potential. We wanted to prepare him for his primary education.

Our search was over when we found Cherie Hearts Knowledge Explorer. It has before/after school care program that cater to his special needs. Together with warm, caring, dedicated special need teachers, we enjoyed great parent-teacher partnership in helping Ameer to achieve his academic goals set for him.

Besides working closely with his teacher, Ameer too, enjoyed loads of social integration. He enjoyed each and every school parties he shared with his peers and other kids at Cherie Hearts Knowledge Explorer.

We would greatly, from the bottom of our hearts, like to take this opportunity to thank all, each and every teachers, who has helped Ameer through these years. He is now in his 2nd year at Pathlight School.

Each child is different, with loads of Help, Effort, Love & Patience,

HE WILL! HE CAN!

Yours truly,
Ajmer Singh & Selena Kaur
Parents of Ameer Singh
